Anil Dhaka

• Freelance UI/UX Designer

About two years of experience designing SaaS platforms, mobile apps and websites for clients in EV charging, healthcare, fitness, AI and home services. I work from research and wireframes through to a finished design system.

Selected Projects

01. BOLTWAGON

EV CHARGING SAAS PLATFORM

An EV charging platform with separate experiences for drivers finding chargers, station owners tracking revenue and uptime, and admins running the network.

2026

02. FUCTURESHIT.NEWS

AI TOOLS DISCOVERY PLATFORM

An editorial site where readers find AI tools by use case, compare them side by side and follow AI news.

2025

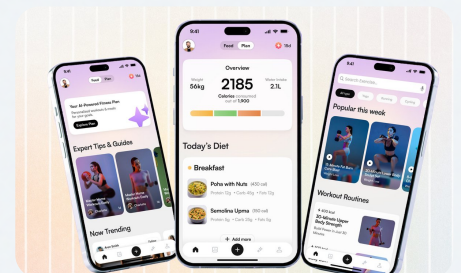

03. BRIO AI

AI-POWERED FITNESS / CALORIE TRACKING APP

A fitness and nutrition app that puts calorie tracking, fasting and workouts in one place, with an AI coach users can talk to.

2025

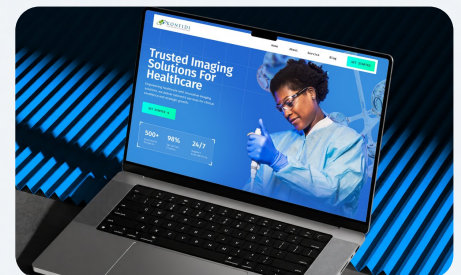

04. KONFIDI HEALTH

HEALTHCARE CONSULTING WEBSITE

A website for a healthcare AI consultancy that introduces its experts, explains each service and lets providers book a consultation.

2024

05. BELLOWS

HOME SERVICES WEBSITE

A redesign for a home services company, so customers can browse cleaning, plumbing and repair services, see prices and book online.

2024
